TGB-970-57  
4 March 1957  
Copy 5 of 6 copies

MEMORANDUM FOR: Colonel James W. Macia  
THROUGH: TSO/USAF  
FROM: TSO/CIA  
SUBJECT: Sanitization of MTPC Report #3, TH-1972-6  
REFERENCE: TH-1442-7 and Report TH-1972-6 (7 copies)  
dtd 21 February 1957

1. Reference is made to our conversation held following the ARC meeting on 26 February 1957, at which time the TSO/CIA brought to your attention a copy of the above-referenced document.

2. It is requested that review and study be made of the subject document, particularly with reference to page 1 of 92 pages, paragraph 2.

3. It is understood that analysts, in order to properly analyze detailed aspects contained in subject report, should be furnished with specific K factors relating to altitude; however, in paragraph 2, the altitudes quoted appear not to be specifically related to the attached charts but seem to appear to be more in the form of "general information" i.e., average altitudes (various altitudes).

4. It is recommended that, if indeed it is determined that this general information regarding altitudes need not be quoted, that appropriate steps be taken to delete this information from the thirty copies of the existing report. This may be accomplished by existing the data or by recalling the reports.

5. On the other hand, should your analysts, who are authorities regarding this subject, find that a "must-know" element exists in the general information as stated in paragraph 2, then the matter will be carefully reconsidered prior to dissemination [REDACTED]

**SUBJECT:** Sanitization of WTPC Report #3, TH-1972-6

6. I think you will concur that publications or reports, even though within the TCS, which may involve the possible compromise of "source capabilities" to persons who have no "need to know", such publications should either be resolved by the originator or presented to the Utilization Advisory Board.
